### 2022 Tax Rate Calculation Worksheet

**School Districts without Chapter 313 Agreements**

**D’Hanis ISD**

**School District’s Name**

**School District’s Address, City, State, ZIP Code**

**School District’s Website Address**

#### GENERAL INFORMATION:

Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per $100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall submit the rates to the governing body by August 7 or as soon thereafter as practicable. Tax Code Section 26.04(e-1) does not require school districts to certify tax rate calculations or comply with certain Tax Code notice requirements. School districts are required to provide notice regarding tax rate calculations pursuant to Education Code Chapter 44.

This worksheet is for **school districts without Chapter 313 agreements only**. School districts that have a Chapter 313 agreement should use Comptroller Form 50-854 Tax Rate Calculation Worksheet, School Districts with Chapter 313 Agreements.

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts or Comptroller Form 50-860 Developed Water District Voter-Approval Tax Rate Worksheet.

All other taxing units should use Comptroller Form 50-856 Tax Rate Calculation, Taxing Units Other Than School Districts or Water Districts.

The Comptroller’s office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

#### SECTION 1: No-New-Revenue Tax Rate

The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates. 15

1. Maximum Compressed Tax Rate (MCR): A district's maximum compressed tax rate is defined as the tax rate for the current tax year per $100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment. 15

2. Enrichment Tax Rate: A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than $0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to compression with any increases in the guaranteed yield. 15

3. Debt Rate: The debt rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and Enrichment Tax Rate added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service. 24

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school board may not consider the amount by which it exceeded its voter-approval tax rate (disaster pennies) in the calculation this year. This adjustment will be made in Section 4 of this worksheet.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election. 25 Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the declaration without conducting an efficiency audit. 22

Districts should review information from TEA when calculating their voter-approval tax rate.
29. **Total 2022 debt to be paid with property tax revenue.**
Debt means the interest and principal that will be paid on debts that:

- (1) Are paid by property taxes;
- (2) Are secured by property taxes;
- (3) Are scheduled for payment over a period longer than one year; and
- (4) Are not classified in the school district's budget as M&O expenses.

A. **Debt** includes contractual payments to other school districts that have incurred debt on behalf of this school district, if those debts meet the four conditions above. Include only amounts that will be paid from property tax revenue. Do not include appraisal district budget payments. If the governing body of a taxing unit authorized or agreed to authorize a bond, warrant, certificate of obligation, or other evidence of indebtedness on or after Sept. 1, 2022, verify if it meets the amended definition of debt before including it here.  
   Enter debt amount: ................................................................. $ __________

B. **Subtract unencumbered fund amount** used to reduce total debt. .................................................. - $ __________

C. **Subtract state aid** received for paying principal and interest on debt for facilities through the existing debt allotment program or other instructional facilities allotment program. .................................................. - $ __________

D. **Adjust debt:** Subtract B and C from A.  
   $ __________

30. **Certified 2021 excess debt collections.** Enter the amount certified by the collector.  
   $ __________

31. **Adjusted 2022 debt.** Subtract line 30 from line 29D.  
   $ __________

32. **2022 anticipated collection rate.** If the anticipated rate in A is lower than actual rates in B, C and D, enter the lowest rate from B, C and D. If the anticipated rate in A is higher than at least one of the rates in the prior three years, enter the rate from A. Note that the rate can be greater than 100%.  
   A. Enter the 2022 anticipated collection rate certified by the collector: __________%  
   B. Enter the 2021 actual collection rate __________%  
   C. Enter the 2020 actual collection rate __________%  
   D. Enter the 2019 actual collection rate __________%  
   100 %

33. **2022 debt adjusted for collections.** Divide Line 31 by Line 32.  
   Note: If the governing body of the school district governs a junior college district in a county with a population of more than two million, add the amount of taxes the governing body proposes to dedicate to the junior college district in 2022 to the result.  
   $ __________

34. **2022 total taxable value.** Enter the amount on Line 20 of the No-New-Revenue Tax Rate Worksheet.  
   $ 233,186,935

35. **2022 debt rate.** Divide Line 33 by Line 34 and multiply by $100.  
   $ 0.13860 /$100

36. **2022 voter-approval tax rate.** Add Lines 28 and 35.  
   If the school district received distributions from an equalization tax imposed under former Chapter 18, Education Code, add the NNR tax rate as of the date of the county unit system’s abolition to the sum of Lines 28 and 35.  
   $ 1.00920 /$100

**SECTION 3: Voter-Approval Tax Rate Adjustment for Pollution Control**

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district’s expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

37. **Certified expenses from the Texas Commission on Environmental Quality (TCEQ).** Enter the amount certified in the determination letter from TCEQ.  
   The school district shall provide its tax assessor with a copy of the letter.

### 2022 Tax Rate Calculation Worksheet – School Districts

#### SECTION 4: Voter-Approval Tax Rate Adjustment In Year Following Disaster

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate in the calculation this year. As such, it must reduce its voter-approval tax rate for the current tax year.

This section applies to a school district in a disaster area that adopts a tax rate greater than its voter-approval tax rate without holding an election in the prior year, as provided for by Tax Code Section 26.042(e).

<table>
<thead>
<tr>
